## **OBJECTIVE**

Results-driven computer engineer with a strong academic background and practical experience in software development. I can leverage my technical skills to contribute to innovative projects and solutions. I am a quick learner and dedicated to continuous learning and staying updated with emerging technologies to drive advancements in computer engineering.

## **EDUCATION**

Bapuji Institute of Engineering and Technology, Davangere

Bachelor of Engineering, Information Science

Siddaganga PU Science College, Davangere

12<sup>th</sup> Grade

Siddaganga Composite High School, Davangere

10<sup>th</sup> Grade

January 2021- July 2024 CGPA: 9.21

March 2018 - March 2020

Percentage: 94 July 2016- July 2018

Percentage: 91.20

## TECHNICAL SKILLS

**Programming Languages/Database:** Core Java, C, Basics in C++ & Python, SQL

- Web Technologies: HTML, CSS3, JavaScript
- Others: Data Structure and Algorithms, OOPS, Programming, Problem Solving, Operating Systems
- Microsoft Office: Word, Excel, PowerPoint

## **PROJECTS**

**Hostel Management System** | *Using DBMS* 

- Created a database that stores and processes the hostel information and vacant rooms, which can be accessed by admin and students through the website, and collaborated with front-end technologies to get better results.
- The admin can add or delete the information about students, and rooms, and students can view their info within the website.

Event Organizer Website | HTML, CSS, JavaScript, SQL, PHP

- Event Organizer Website is an effective and efficient solution to the complex task of event planning and event management, aone-stop solution for the aforementioned complex tasks.
- Understood and Analyzed the user feedback and incorporated it into updates, improving user experience.

## **WORK EXPERIENCE**

Genesis

Full Stack Developer Intern

August 2023 - September 2023

- I Developed and created the "Event Organizer Website" using HTML, CSS, JavaScript, and PHP, contributing to both the front-end and back-end components with this I learned advanced and new concepts of respective languages to achieve a more user-friendly interface.
- I Gained hands-on experience in full-stack development, including server-side scripting and front-end interactivity.

**Oasis Infobyte** September - 2023 Online

Web Developer Intern

- I Developed and sustained new user-friendly interfaces for three projects, including a personal portfolio, landing page, and Temperature Converter website, utilizing web technologies such as HTML, CSS, and JavaScript.
- I Acquired proficiency in analyzing the user requirements within an application to make it more attractive and efficient.

## **CERTIFICATIONS**

- C Programming (Udemy), Where I learned about code and logic development basics.
- TCS iON Career Edge-Young Professional about soft skills (TCS), Where I learned Communication skills (written, verbal, presentation), presentation skills, and qualities to exhibit Professionalism.
- 24-hour Hackathon named HackTechFusion (BIET), Where I Learned to work Independently and with the team.
- Database Application Development Workshop –(BIET), got to know about how the systems and technologies work.

## **ACHIEVEMENTS**

Secured first place in my first year of engineering academics.
